MANAGING BIODIVERSITY IN AGRICULTURAL ECOSYSTEMS

An International Symposium sponsored by the United Nations University, the International Plant Genetic Resources Institute, and the Secretariat of the Convention on Biological Diversity Montreal, Quebec, Canada, 8 - 10 November, 2001

Thursday, 8 November, 2001.		
0900-0945	Opening Session (Chair: Edwin Gyasi)	
Deborah Buszard	Welcoming Statement by the Dean, Faculty of Agriculture and Environment, University of McGill	
Coosje Hoogendoorm	Welcoming Statement by the Deputy Director General, International Plant Genetic Resources Institute	
Hamdallah Zedan	Welcoming Statement by the Executive Secretary, Convention on Biological Diversity	
Motoyuki Suzuki	Opening Statement by the Vice Rector, United Nations University	
Coffee break		
	Theme: Managing Diversity: Crop and Livestock Genetic Resources	
1015-1200	1-1: Managing Crop Genetic Resources (Chair: Song Yiching)	
Tony Brown	Managing plant genetic diversity in agro-ecosystems sustainably	
Mohamed Sadiki	Diversity of farmer-named Faba in Morocco	
Raul Cristobal Suarez	Human & environmental factors affecting agrobiodiversity in Cuban home gardens	
Truong Van Tuyen	Farmer's management of crop diversity in coastal agroecosystems, central Vietnam	
	Discussion (leader: Didier Balma)	
Lunch break	Poster session A	
1345-1530	1-2: Managing Crop Genetic Resources (contd.) (Chair: Isabelle Massinde)	
Fetien Abay	Local innovation and initiative in managing biodiversity in northern Ethiopia	
Joyce Mulila-Mitti	The role of seed gardens in enhancing seed security, conserving and using agrobiodiversity	
Oliver Coomes	Crop diversity in indigenous farming systems in Amazonia; the role and dynamics of planting stock among traditional farmers	
Anil Subedi	Who maintains crop diversity, and how?	
	Discussion, Session 1-2 and Poster Session A (leader: Devra Jarvis)	
Coffee break		
1600-1745	1-3: Managing Livestock genetic resources (Chair: Beate Weiskopf)	
Istvan Szalay	Managing small livestock diversity in Eastern Europe	
Jenny Bester	The Nguni: a case study	
Joyce Njoki Njoro	Community livestock improvement initiatives: the case of Kathekani, Kenya	
T N P Gondwe	Community-based promotions of rural poultry diversity in Malawi	
Prook	Discussion (leader: Ela Martyniuk)	
Break 1830-2000	Percention at McCill University (Heater Den Smith and Colin Dungen)	
1030-2000	Reception at McGill University (Hosts: Don Smith and Colin Duncan)	

Friday, 9 November, 2001.		
	Theme: Managing Diversity: Associated biodiversity and agro-ecosystem services	
0830-1030 Mike Swift Felix Dakora Michael Stocking	 2-1: Managing Soil biodiversity (Chair: Michelle Gauthier) Managing below-ground biodiversity Managing diversity in cropping systems: symbiotic and non-symbiotic microbes and associated host plants Soil agrodiversity - an aspect of farmers' management of biological diversity 	
Fidelis Kaihura	Ethnopedologic soil management technologies and their impact on biodiversity in small farms of Arumeru, Arusha, Tanzania	
George Brown	Diversity and the functional role of soil macrofauna in Brazilian no-tillage systems Discussion (leader: Sally Bunning)	
Coffee break		
1100-1240 Wanja Kinuthia TBD* Connal Eardley Nasreen Muzaffar	2-2: Managing Pollinator diversity (Chair: Peter Kevan) Pollinators - an ecosystem service for agriculture Managing pollinator diversity, a case study from Brazil Managing pollinator diversity, a case study from South Africa The sustainable management of insect pollinators in Pakistan Discussion (leader: Barbara Gemmill)	
Lunch break	Poster session B	
1425-1550 Bill Settle Wang Yunyue Yunita Winarto	2-3: Managing diversity for pest and disease control (Chair: Daniel Buckles) Functional Diversity for integrated crop management Cultivating biodiversity for disease control; a study from China Managing paddy and soybean varieties in Java and Lampung: two cases of farmers' creativity Discussion, Session 2-3 & Poster Session B (leader: Toby Hodgkin)	
Coffee break		
1620-1805 Colin Duncan Raymond O'Connor Sara Scherr	2-4: Managing the impacts of agriculture on wild biodiversity (Chair: Timo Maukonen*) Agriculture and Biodiversity; an historical perspective Agricultural regimes ad the conservation of farmland biodiversity Ecoagriculture to raise farmer income and save wild biodiversity Discussion (leader: Don Smith)	
Saturday 10 November, 2001. Theme: Managing Diversity: Landscape, scale and change		
0900-1030 Miguel Pinedo-Vasquez Mahmadou Sawadogo Kanok Rerkasem	 3-1: Managing Diversity in the agricultural landscape (Chair: Harold Brookfield) Valuing and promoting smallholder diversity practices: the approach of PLEC Ecosystem components as indicators to farmers to conserve, maintain and manage local crop diversity in Burkina Faso Farmers' management of fallow succession in Thailand Discussion (leader: Christine Padoch) 	

1100-1235 Edwin Gyasi Guo Huijun Farida Akhter	3-2: Managing Diversity in the agricultural landscape (contd.) (Chair: Harold Brookfield) Managing diversity in the agricultural landscape; Ghana Agroecosystem change and threats to agrodiversity in Xishuanbanna Agricultural biodiversity and the livelihood strategies of the very poor Discussion (leader: Christine Padoch)	
Lunch break	Poster session C	
1420 - 1545 Tim Johns David Wood Dididt Pelegrina <u>Coffee break</u>	3-3: Managing Diversity under Global Change (Chair: Liang Luohui) Dietary diversity, global change, and human health Diversity, simplicity and the optimization of agrobiodiversity Managing diversity under changing market and production conditions in S & SE Asia	
1615-1715	Discussion and Summing up Discussion (leader: Devra Jarvis)	
David Cooper, Toby Hodgkin & Harold Jan Plesnik	Managing biodiversity in agricultural ecosystems; what have we learned? Closing remarks	
Sunday 11 November, 2001.		
	IPGRI, IPI and PLEC project meetings
